

PILOTECH METAL TREATMENT CHEMICALS

PILOTECH ULTRA N

NEUTRAL DETERGENT CONCENTRATE

Applications	Removal of grease, wax polish, vegetable oil based liquids and other impurities in applications involving immersion and ultrasonic cleaning as well as vibration grinding. Particularly suitable for copper, light metals, related alloys, and plastics.	
Properties	Clear water-soluble liquid. <ul style="list-style-type: none">- Long-life immersion bath- Low wash temperature- Active in low concentration- No oxidation of non-ferrous metals- Rinses well	
Product description	Anionic tensides	5 – 15 %
	Non-ionic tensides	5 – 15 %
	Complexation agents	< 5 %
Instructions for use	Dosage: 3 – 6 % Handling time: 2 to 20 min Operating temperature: 30 – 60 °C pH of concentrate: 8,3 Specific weight of concentrate 1,035g/l Bath monitoring by titration: 50ml sample Indicator bromo phenol blue Volumetric solution 0.1 n HCl Titration factor 0.45	
Product code/	423405	20 litres
Package size	423409	200 litres
	423407	1000 litres
Storage	Warm/cool storage. Keep in original package, store tightly closed.	
Environmental impact	Biodegradable.	
Disposal	Used cleaning liquid is hazardous waste. For instructions see product safety sheet.	
Country of manufacture	Finland
